

Brand new Yahoo Store set up for new credit card processing:

1. From the Open for Business Control Panel click **Payment Methods**
2. Click **Set Up My First Payment Method**
3. Select the **Yes** option
4. Select the **Existing Business Account** option, click **Next**
5. Enter your account information enclosed in your Welcome Letter from eMerchant (see Section A below)

Existing Yahoo Store, change credit card processors:

First, you must either cancel or settle all open Authorizations. Then, you must Batch out.

1. From Store Manager, click the **Payment Center** link under the Order Settings column
(You may be prompted to enter your security key to proceed)
2. Click **Add New Processor**
3. Select the option to use your **existing payment processor**
4. Select the option to **configure an existing merchant account** and click **Next**
5. Enter your account information enclosed in your Welcome Letter from eMerchant (see Section A below)

Section A

- A. Enter Name of Bank (See Welcome Letter)
 - B. Enter Merchant Number (See Welcome Letter)
 - C. Enter MID (See Welcome Letter)
 - D. Enter TID (See Welcome Letter)
- Click **Finish**

Enter your existing Merchant Account information

Use the fields below to set up your merchant account to process credit cards online through FDMS, the Yahoo! Store Payment Processor. If you have an existing merchant account, you will need to request a new MID (merchant identification) and TID (terminal identification) for use with Yahoo! Store using the information in the box below.

Note: Your merchant account must be compatible with FDMS Nashville in order to process transactions online. Contact your merchant account provider to determine if your account is compatible. If your account is not compatible, you can choose to sign up with Paymentech, PayPal, or a compatible provider, or you can choose to process transactions offline.

Name of Bank	<input type="text"/>	A
Merchant Number	<input type="text"/>	B
For your reference only -- not used by the software.		
MID (Merchant Identification)	<input type="text"/>	C
Check this number carefully. You can omit leading zeros.		
TID (Terminal Identification)	<input type="text"/>	D
Check this number carefully. You can omit leading zeros.		

You may need to provide the following information to your bank:

- ProductName: Yahoo! Store FDMS (g/w)
- Product ID: 819000
- Vendor Name: Yahoo!
- Vendor ID: 190
